

**FOOD FREEZING  
FORUM**

**HAMBURG  
17.03.2026**

## **SOLUTIONS FOR THE FROZEN FOOD PRODUCTION OF THE FUTURE**

Discover the latest developments and practical presentations, and make valuable contacts at the specialist forum for production managers, technology providers and food designers in the frozen food production industry.

### **Specialist forum and accompanying exhibition of industrial freezing processes.**

The Food Freezing Forum is the world's first event format that is exclusively dedicated to the industrial freezing of food and convenience products.

This is where the production managers from the frozen food industry meet the manufacturers of freezing process technology. The main focus of the event is on discussing the latest trends and developments, the key challenges and best practice case studies.

The Food Freezing Forum is therefore the ideal platform for making new contacts, meeting potential partners and defining requirements for technology providers and the supply industry.

## EXHIBITOR PACKAGE

The exhibition area is located in the coffee break area, directly in front of the Chicago conference room. Here you will meet operations and production managers, technical managers, and product developers from frozen food producers.

The exclusive Food Freezing Forum stand package provides you with a highly effective yet straightforward way of engaging with visitors.

For a participation fee of € 2,450 (plus VAT), you will receive a complete package including the following services:

- Table
- Stool
- Custom lettering on the front panel of the counter
- Floral arrangements
- 4 tickets for the Food Freezing Forum

Please note that the number of stand packages is restricted to 8. It is therefore advisable to register your participation as soon as possible.

Please also feel free to speak to us about exclusive sponsorship opportunities to increase your visibility even further!

Exhibitors can find more information at:
